MAY PARTICIPATE IN ADMINISTRATION

(Special to the Standard)

Washington, July 22.—To give settlers and other local users a larger voice in national forest administration, Secretary of Agriculture Houston has just promulgated a new regulation which goes into effect at once, providing a means by which the forest service may systematically co-operate with duly organized associations of such users.

Any association whose members include a majority of the local residents making use of the national forests may get together and select a committee, to meet with the local forest

officers. This committee will be recognized in an advisory capacity in settling questions which may arise between the forest service and the public in the use of the forests.

The exact wording of the regulation is:

"Wherever any association whose membership includes a majority of the local residents using a national forest, or portion thereof, for like purposes, shall select a committee, an agreement on the part of which shall be binding upon the association, such committee, upon application to the district forester, may be recognized in an advisory capacity on behalf of the association, and shall be entitled to receive notice of proposed action and have an opportunity to be heard by the local forest officer in reference to any proposed changes likely to materially affect the use or interest in the forest or portion thereof enjoyed by such permittees. The general principles of recognition and responsibility governing co-operation with live stock associations are herewith extended, so far as they are applicable, to the other regular lines of business conducted on the national forests."

The object of this regulation is to extend what may be called home participation in national forest management. It is recognized that the best use of the forests in the interest of the general welfare means the promotion of local welfare, and that the forests must be handled with careful consideration for all local interests involved. It is recognized also that public confidence in the spirit of fairness with which individual citizens are treated as essential, and that local participation in the settlement of many questions is the best possible safeguard against arbitrary or unwise decisions by local forest officers.

In other words, it is desired to prevent any local feeling that a western user in contact with the national forest administrative system is up against a far-away bureau at Washington, represented on the ground by a forest officer who can do as he chooses and against whose actions it is impossible to make effective protest. In the case of the grazing regulations a method of co-operation between the forest service and users of the forest ranges has been developed which is said to have done away completely with any such feeling. Cattle and sheep growers' associations not only assist in the settlement of disputes concerning individual privileges but also join in the formulation of plans for the best use of local ranges and through their national associations are given an opportunity to be heard before regulations which affect their industry as a whole are adopted. The local associations insure attention to complaints of unfair action which are found to be justified, while on the other hand they automatically dispose of many cases of complaints that are found, when all the facts are considered, not well grounded.

It is the announced policy of the department to favor the greatest good to the greatest number, and the local user over others. With the help of the advisory boards now provided for many of the problems affecting individuals, which the application of such a policy involves can be settled by submitting them to what is practically the organized public sentiment of their own neighbors. On the other hand the organization can initiate questions and bring them to the attention of the forest service, backed by the voice of the majority of those who are dependent upon the forest industries.

Already several associations besides those composed of stockmen are co-operating with the forest service, though there was no provision for their official recognition before the new ruling of the secretary went into effect. One of the pioneers was the Malad Forest Users' association, composed of men who reside in or near the Pocatello forest which lies on the border of Utah and Idaho. The advisory board of this association has acted as a clearing house for complaints and a medium through which mutual understanding and understanding might be reached. It is said to have saved its members and the forest service much trouble, embarrassment, and even litigation.

CONFERENCE AIDS SEARCH FOR BOY

LOGAN, July 21.—Word reached here today of the drowning yesterday afternoon of William L. Dabie, 12-year-old son of Garrett Dabie of Clarkston.

The boy was on a raft in Newton reservoir when the accident happened. The raft drifted from shore into deep water. The boy's two companions could swim and made to shore. The younger lad became frightened and he, too, jumped into the deep water, only to sink out of sight.

The two lads ran two miles for help. News spread to the meeting house, where ward conference was being held, and more than 900 persons, adjoining conference, assisted in the search for the body.

Funeral services will be held Tuesday at 1 o'clock in the Clarkston meeting house.

COMMERCE ASSOCIATION

Italian - Chinese Association Is Organized in Naples — Follows Example of France and Japan in Fostering Closer Commercial Relations

(Special to the Standard)

Naples, July 22.—The Cameradi Commerce Italo-Chinese (The Italian-Chinese Chamber of Commerce) has been organized here by leading importers and exporters. The object of the new body is to foster closer and more direct commercial relations between Italy and China. The project has the endorsement of both governments, as the honorary governors of the organization are the Chinese minister of commerce, the Italian minister of Italy and the Italian minister to China. The membership of the new chamber is made up of Italians and Chinese.

Plans for the Italian-Chinese Chamber of Commerce were drawn up in May, approved here and then sent to Peking, where they were ratified June 5. Peking's ratification being received a few days ago, the preliminary announcement of the proposed organization has been confirmed.

The prospectus of the Chamber sets forth that Chinese goods valued at Frs. 89,000,000 are used annually in Italy, while the Italian trade in the celestial republic is as great, if not greater. These products from China reach Italy through European middlemen, and the primary purpose of the Chamber is to establish a more direct trade with China by which the middlemen may be eliminated. Plans for the future, however, are broad in scope, and contemplate the following measures:

1. A close study of Italian-Chinese commercial and financial relations by Chinese and Italian trade experts to the end that each country may learn more definitely the needs of the other, and endeavor to supply more commodities to each other; to analyze conditions of trade and manufacture so as to reduce the cost of production and sale and thus enhance profits.
2. The organization of commercial consulates, land development concerns etc. the same to be financed jointly by Chinese and Italian capital, for the rehabilitation of China.
3. An interchange of ideas which will lead to a better understanding between Chinese and Italian capitalists and merchants.

SOUTHERN BORDER

This city and its environs will be greatly interested in the announcement that Buffalo Bill's Wild West and Pawnee Bill's Far East came to Ogden on Tuesday, July 23. A series of episodes called "Pioneer Events in Frontier Days" introduced in a new way this season, further proof that America is still full of picturesque characters. Even the Far East has no more of the odd and interesting, than we have, for although the jingling spurs of the cowboys are seldom heard these days and the music of the six-shooter has given way to the hum of the reaper and other civilizing influences have brought us down pretty well to one pattern, it is not so along our southern border.

Pick out almost any spot along the 2000 miles of frontier, between the Gulf of Mexico and the Pacific and you will find plenty of romance and action still remaining on both sides. For the presentation of frontier sports and pastimes, Mexico contributes—bandits, matadors, revolutionists, Yaquis, rurals and vaqueros. America—cowboys, cavalry, rangers, plainsmen, trappers, sharpshooters and Indians of many tribes.

Fiercer-eyed steers from the Sierra Madre district are roped, tied and thrown, wild horses that buck, pitch, dig sand and "swap ends," in pleasing rotation are saddled and oftentimes ridden.

Lady broncho busters in divided skirts of corduroy enliven the scene and bid for applause. Exciting "round ups" and buffalo hunts, horseback quadrilles and equestrian football gives variety.

Cowboys, Rangers and Rurals add picturesque with thrilling feats of horsemanship.

Indian warfare is shown by an attack on an overland train of settlers in all its destructiveness and savagery, and a regressive reflex—of the stage coach and pony express rider and their vicissitudes in early days are exhibited in an entirely new frame with realistic scenery and effects.

All the participants in the "Wild Western" portion of the colossal program, are fired with the aura of excitement which vibrates about all who lived in an atmosphere of adventure, presenting an intelligent respect of the time and the place, not only in its physical aspect, but historically and humanely.

GALLINGER CHOSEN TO LEAD REPUBLICANS

Washington, July 21.—Senator Gallinger of New Hampshire has been chosen once more as chairman of the Republican senate conference, a position which carries with it the nominal leadership of the minority party in the senate. It is the position he held in the last congress.

Back of this bare announcement, which came from the Republican conference, is a story of dissection.

Senator Reed Smoot, by persistent effort, has been endeavoring during the last two years to plant himself in the shoes which have been vacated ever since Aldrich stepped out of them.

But the action of the Republican caucus in reappointing Senator Gallinger as their titular head has by no means brought with it the subordination of Senator Smoot's ambitions. Senator Gallinger is to direct the fight of the Republicans against the Democratic tariff. Senator Smoot wanted the job and thought he was going to get it.

He proposed the so-called minority report on the tariff, which he put out in advance of the majority report, and he has made every preparation to go ahead and lead the fight.

JAPAN'S PROFIT ON RAILWAY

(Special to the Standard)

Tokio, June 22.—According to the Jiji, one of the leading Japanese newspapers, in this fiscal year's profits of the South Manchurian railway company will be yen 2,000,000 or \$1,000,000 United States currency. The government's return last year was \$750,000, thus showing an increase profit of 25 per cent in one year.

The total net profit of the road this fiscal year is yen 4,926,000, or almost \$2,500,000, and of this the government draws its 40 per cent, as per agreement. The dividend to private stockholders this year will be 6 per cent.

A still greater profit is expected next year in view of the tariff agreement which went into effect two weeks ago, whereby a reduction of 30 per cent in duty is given on all goods entrained at Antung for delivery in Manchuria. This substantial concession, which will lead to increased traffic on the South Manchurian railway, was forced from China by Russia when the Bear controlled the line, and the Japanese have been waiting impatiently for the date when this additional concession would become effective.

PLAN BIG CELEBRATION.
Kaysville, July 21.—Pioneer day will be observed in Kaysville and all who were in Utah prior to the spring of 1858 will be honored as pioneers. That date was fixed because it was the time of what is known as the "move," when the settlements north of Salt Lake City were deserted and the inhabitants went south to Utah county while Johnson's army marched through and encamped in Cedar valley, west of Lehi.

The committee have announced a list of about 100 pioneers under the above designation. These will meet at 10:30 a. m. and a procession will be formed, headed by pioneer vehicles and followed by modern automobiles and automobiles carrying the honored guests.

The streets set apart for the procession will be lined with children, each bearing a flag and a bouquet of flowers. At the opera house a program of Spanish folk songs, in which Hon. Charles R. Mabey will be orator of the day. William Holmes will sing and Miss Myrtle Burton will recite. The Kaysville choir and band will furnish selections, and Professor and Mrs. E. David Maun of Woods Cross will appear in violin and piano selections.

The committee of sports will have charge of the afternoon events, and horse races, motorcycle races, fire department competitions and baseball will occupy the time.

LEAPS FROM AUTO IN EFFORT TO SAVE BABY

Reno, Nev., July 21.—Leaping from a speeding automobile in the effort to save her baby, a lady, which had been thrown from her arms when the machine struck a chuck hole, Sella Servel, wife of Fred Servel, leading member of the French colony, was almost instantly killed late this afternoon. Her baby, but slightly hurt, walked unaided to the spot where its mother lay in the arms of her husband.

Jaques Miramont, driver of the machine put on all speed to reach medical aid. A mile out of town, at the foot of a steep grade, his machine turned completely over while going at more than a mile a minute. He escaped without a scratch and ran over a mile to the nearest house.

Mr. and Mrs. Miramont, Mr. and Mrs. Servel and two children were returning from a camping trip near Susanville, Cal. They were within sight of home when, on turning a curve, one wheel of the car struck a rut and the baby, lying in Mrs. Servel's lap, was thrown out. Mrs. Servel leaped to save it, but as she did so lost her balance and went headlong after the child. Her husband seized her clothing as she shot from the car. Her head struck a boulder by the roadside and she was dragged a short distance. She lived but a few moments.

MINISTER AROUSES
HEARERS TO APPLAUSE
Caldwell, Ida., July 21.—The unusual spectacle of a congregation breaking into applause in the midst of a sermon was seen here last night when the Rev. D. B. Titus made some telling points in the course of an impassioned address, mainly directed to the duties of parents.

The Rev. Mr. Titus gave a prominent physician as his authority for the statement that diseases due to immorality among children of school age had increased 100 per cent during the past year. He said that the parents are the ones who should be devoted to the welfare of the younger members of the family.

Statistics showed, he said, that 65 per cent of our men in cities are un-

fit for the duties of husband and father, but we are too cowardly to insist that every man who seeks a woman in marriage shall obtain a certificate of his fitness. The children are one in four that the issue of such a marriage may be insane or blind from a similar reason. A meeting for parents, he said, was called here recently to look into these things and twenty-five attended. Had the invitation been for a bridge party every last parent invited would have been present.

BOY IS KILLED BY LIGHTNING

Twin Falls, Ida., July 21.—Ernest Bartholf, aged 10 years, was struck by lightning at Rogerson, thirty miles south of Twin Falls, at 4 o'clock this afternoon as he was going to the post office and instantly killed. Almost every bone in his body was broken.

There was a cloudburst near Kimberly yesterday and lightning burned several stacks of hay and killed three horses. Severe electric storms and casualties from lightning have been almost unknown here until this year. It is noticeable that the clouds are few and not threatening in appearance.

SPECIAL ROAD TAX FOR HIGHWAY

Salt Lake, July 22.—To defray the county's share of cost of a cross-country highway from Summit county in Parley's canyon to the Tooele county line west of Garfield, the Salt Lake county commissioners will levy a special tax of 5 mills in both Garfield precincts and Parley's canyon precinct.

The levy has not been formally made, but the commissioners have been informed by the state road commission that these two precincts will be designated for road improvement under direction of the highway commission.

The state highway commission first wanted the commissioners to levy the tax in two precincts in the southern part of the county, but as these precincts take in the whole southern section of the county, the county commissioners declined. The road commission then designated the Garfield and Parley's canyon precincts.

In these precincts, it is said, the tax will fall lightly on the small property owner as the principal holdings are by corporations, such as the Utah Copper company, the Denver & Rio Grande Railroad company and the Emigration Canyon Railroad company. The tax in the Parley's canyon precinct will be used to improve the canyon road from the summit, where Salt Lake and Summit counties join, to the city limits of Salt Lake. On the west, the money will be spent on the main highway from Salt Lake through Garfield to Tooele county.

KNIGHT BACKING IRRIGATION WORK

Salt Lake, July 22.—Announcement of plans for a \$100,000 irrigation project to water some 8000 acres of land in the Blue bench district in the Utah basin, and with it news which is thought to indicate that the Moffat road will enter Salt Lake by the Hobbie creek canyon route were made yesterday by Jesse Knight of Provo to the press. Mr. Knight's name had been connected with the building of a large sugar refinery in Utah county, and with the survey of a road to connect a town in the Denver & Salt Lake (Moffat) road.

The Provo capitalist said last night that rumor had been correct only in connecting him with the irrigation project. A company has been formed to put water on the Blue bench, he said, and had issued \$100,000 in bonds, having taken up the full issue. W. O. Creer of Spanish Fork, said Mr. Knight, is in charge of work on the project which will be started soon. Connection of Mr. Knight with a project to build a road to connect with the Denver & Salt Lake line, meeting it in the Utah basin, and rumors that the Provo capitalist had had surveys at work mapping out a route, were ascribed by Mr. Knight to the fact that he recently turned over all documents, gleaned from a survey made several years ago, to the Moffat road interests. This survey followed the Hobbie Creek canyon route, and the fact that the Denver & Salt Lake has secured information from Mr. Knight bearing on this work is thought to indicate that it intends to come down that canyon in entering its western terminus.

WEDGWOOD GIVEN HIGH HONOR BY U. S.

Adjutant General E. A. Wedgwood, commander of the National Guard of Utah and known as one of the most competent military officers in the country, was yesterday appointed a member of the national militia board by Secretary of War Garrison. Friends of General Wedgwood were delighted to hear of the appointment, declaring it was a recognition well earned by many years of hard work in behalf of the militia of Utah and for service in the Philippines during the Spanish-American war.

The news of the appointment was received from Washington at General Wedgwood's office here. He was in Provo trying a lawsuit and was informed of the honor over long-distance telephone.

YOUTHFUL, WRINKLELESS Skin Easy to Have

(Elberta Reid in Woman's Tribune.)
You who desire to regain a youthful appearance will do well to make the acquaintance of the two simple, but valuable, prescriptions here given. To make an effective wrinkle-remover, mix an ounce of powdered salicylic acid and a half-pint witch hazel. Bathe the face in the solution—Immediately every wrinkle is affected. It acts wonderfully on sagging facial muscles, also, the lotion possessing remarkable astringent and tonic properties.

To get rid of an aged, faded, freckled or discolored complexion, buy an ounce of common mercuric wash at any drug store and apply nightly as you would cold cream, erasing this morning with soap and water. This will slowly abate the undesirable surface skin, revealing the underlying, brighter, healthier skin underneath. It is known as a facial rejuvenator. Adv.

BANKER'S HEROINE WIFE HOPES TO CLEAR HIS NAME AND START HIM ANEW IN MEXICO

Mrs. M. A. B. Ham.

San Francisco, July 21.—(Special.)—Mrs. M. A. B. Ham, wife of George I. Ham, the banker, who effected his release from a Mexican prison during the turmoil of the revolution, has arrived from the lower coast. Single handed, she labored in behalf of her husband, who is now trying to recover his health in Europe. In an effort to recoup the broken fortunes of the banker, whose imprisonment for alleged misappropriation of funds attracted wide attention two years ago. Undismayed by the trials and tribulations she underwent in the southern republic, Mrs. Ham still has hopes that the interests of her husband will come out all right and she says that they expect eventually to return to Mexico. She formerly lived in Pasadena.

During the time Ham was languishing in a dungeon his wife worked bravely for his release, appealing to many high and influential sources to no avail. She made many trips to Mexico City, experiencing all kinds of odd adventures. Then came the revolt, and a fortunate revolt it was for the Hams. Ham, who had been sentenced to serve a dozen years in jail, was released when the prisons were thrown open. Although he had the confidence of his associates, Ham feared further trouble and fled the country. He is now in France, where his wife will join him.

Ham was president of the United States Banking company, which failed several years ago.

LEGAL

SHERIFF'S SALE.
In the District Court of the Second Judicial District of the State of Utah, in and for the County of Weber.

John Green and Mary J. Green, plaintiffs, vs. William Wheeler, Jr. and Jane D. Wheeler, defendants.
To be sold at sheriff's sale on the 18th day of August, 1913, at 12 o'clock noon, at the front door of the Weber county court house, in Ogden City, Weber county, Utah, to-wit:

A part of the southwest quarter of section 12, in township 6 north of range 2 west of the Salt Lake meridian, United States survey.
Beginning at a point west 20.5 chains, and north 2 degrees east 4.05 chains from the southeast corner of said quarter section, and running thence north 3 degrees 15 minutes east 755 feet; thence south 63 degrees 20 minutes west 304 feet; thence north 78 degrees 25 minutes west 175 feet, more or less, to a point due north of a point 415 feet west from the beginning; thence south 710 feet, more or less, to a point 415 feet west of the place of beginning; thence east 415 feet, to the place of beginning, containing 6.8 acres.
Also: A part of the southwest quarter of section 12, same township and range, beginning at a point 3.20 chains north and 26.75 chains north of said quarter section, and running thence north 89 1/2 degrees east 4.23 chains; thence north 4 1/2 degrees east 0.57 of a chain; thence south 89 1/2 degrees east to a point due north of the beginning; thence south 22 rods to the beginning, containing 1.6 acres.
Together with all and singular the tenements, hereditaments and appurtenances thereunto belonging, or in any wise appertaining; also all water rights and shares of water belonging to and used on said lands.

T. A. DeVine,
Sheriff of Weber County, Utah
By G. W. LEATHAM,
7-19-13wks. Deputy.
